Hi Donna, I don't know if you have a copy of EPA's comments on the draft final Wyoming DEQ study results here is the link: <https://www.epa.gov/region8/pavillion>

I'm also attaching pdfs of the recent ES&T study and support document.

In addition, you can access all of the previous WY reports and comments at the WOGCC website: http://wogcc.state.wy.us/pavillion_wrk_grp.cfm

Hope you enjoyed the skiing. I was out again last weekend with great spring conditions.

Gregory
